

Sheet1

Risk	Statement	Response	Objective	Likelihood	Impact	Risk Level
RSI	My wrists could be aching	Keep wrists moving.	Safeguard my wrists for the future.	Very unlikely	Minor	Low
Personal illness	I could take ill with something like Covid or another virus that could put me out of action for a while.	Look after my health and perhaps take supplements.	Minimise illness and consequent impact upon the project.	Moderate	Major	Low/Medium
Computer issues	Software or hardware issues could happen which would impede my ability to finish the project.	Install an IDE, Maven etc on a spare PC.	Allow me to continue working if computer issues crop up.	Moderate	Hazardous	Medium/High
Internet outages	My internet connection could suffer outages which would hamper my work as I need to use internet resources etc.	Use mobile phone as a hotspot if outages happen.	Reduce potential downtime.	Unlikely	Minor	Low/Medium
Power outage	My home power supply could be cut without warning.	Consider purchasing a UPS.	Reduce potential downtime.	Very unlikely	Major	Low/Medium
Trainer absence	QA trainer could be absent at short notice, reducing the amount of support I had available.	Keep up to date with all documentation and external sources of support, so that I can continue in the absence of a trainer.	Reduce potential loss of support.	Unlikely	Minor	Low/Medium
